

Financial Assistance Policy Plain Language Summary

Overview

If you do not have insurance or your health insurance did not cover your entire bill, you may qualify for a discount. An application along with support for it may be required. Discounts are only for emergency or medically necessary care. If you have insurance, this discount does not apply to non-covered services or out of pocket expenses. If you do not have insurance, you must first apply for it through State or other programs.

If you qualify, you will not pay more than 30 percent of the total charges you owe. We update this amount each year. You have 240 days to apply for this once you receive a statement.

To Get Help

If you do not have insurance, you may be able to get free or reduced fee care. If you have insurance, you may be able to get free or reduced fee care, after insurance has paid its share.
